Wheat Declined Yesterday Under the Bearish Government Crop Report.

WORLD'S VISIBLE SUPPLY INCREASING

Corn Was Dull and Weak-There Was a Decline in Oats-Provisions

Oats was influenced almost entirely by wheat and corn and a substantial decline awas chronicled. September was sold by hoth longs and elevator people. There was a good demand for cash, but the speculative article was hard to dispose of. Receipts were 320 cars. September ranged from 20%c. Provisions were slow but firm. Hog receipts were heavy, but outside support was good and selling by shorts restricted. Prices kept within a narrow range, slightly higher than Saturday. At the close September pork was 50 higher at \$8.30; September lard unchanged at \$5.35 and September lard unchanged at \$5.35 and September lard unchanged at \$5.35 and September ribs 2½65c higher at \$5.07½65.10.

Estimated receipts for tomorrow: Wheat, \$55 cars; corn, 125 cars; oats, 335 cars; hogs, \$2.000 head.

The condition in New York and California is 88, in Wisconsin 98, in Minensota 96, Iowa 100, South Dakota 95, and North Dakota 93. There is an increase of 1 per cent in the acreage in potatoes and the crop promises well. The wool report indicates the average weight per fleece as being 5.95 pounds, an increase of .15 pound over last year.

The proportion of the wheat crop of 1898 still on farms is reported at 9.5 per cent, or about 64,000,000 bu.

The condition of the forage crop and principal fruits will appear in the printed report, the unprecedentedly large number of correspondents reporting this month having rendered it impossible to tabulate all the products reported upon in time for the telegraphic synopsis, even by working overtime.

MOVEMENTS OF STOCKS AND BONDS

Continued Tightness of the Money Market Precipitates Liquidation. NEW YORK, July 18.-The continued ightness in the money market precipitated iquidation of speculative accounts today which resulted in losses in value ranging from \$1 to \$8 a share in all the principal active stocks traded in. Heavy seiling for London account marked the opening on the exchange and as the day progressed the successive calling of loans resulted in the marking up of the rate for call loans to 7 per cent. This rate forced many speculators on the long side to close out. There were special points of weakness besides in one or two prominent stocks, of which the bears were quick to take advantage and which were a potent influence in the general sentiment in tavoring a decline.

Most conspicuous of these was People's Gas, which opened at 11 against 12% on the last sale Saturday. There were heavy offerings of this stock, but determined support worked a quick raily of 1%. Afterwards it fell below the opening price and closed with a net loss of nearly 3 points. The motive of the selling was the reported plan of a rival company to organize a competing service upon the expiration of the present agreement. The demands made upon Metropolitan Street Railway company on behalf of its employes and the danger of a costly strike caused the stock of that company to drop 5% at one time.

The dealings in it were not heavy and the tone was very feverish throughout, the last sale showing a net loss of 29. All of the local traction stocks were affected sympathetically, Manhattun losing 3 points and Brooklyn Transit over 2 on the day. Sugar also was notably weak, the selling being oredited to realizing by speculative holders. The combined weakness of these influential etocks was sufficient to cause a demoralized feeling throughout the group of industrials. In the railroad list the weakness was more prestricted to the seakness was more which resulted in losses in value ranging from \$1 to \$8 a share in all the principal feeling throughout the group of industrials. In the railroad list the weakness was more restricted to the stocks which have been recently pushed up by speculative manipulation.

restricted to the stocks which have been recently pushed up by speculative manipulation.

Pennsylvania, New York Central, Atchlson preferred, Burlington, Reading first preferred, and other stocks equally prominent in the speculative world were at one time 2 points or more below Saturday's prices. The grangers generally, the coalers and the trunk lines declined from 1 to 2 points. The southern and southwestern stocks as a rule showed resistance to the decline and their net losses are for the most part small fractions. The steel stocks also were little affected by the prevailing weakness.

The break in prices was due to the miscalculation of speculators as to the period of relief expected in the money market. The delay in this matter seems to be due to uneasiness caused in foreign centers by the situation in the Transvaal. France was an eager bidder for gold in the London market today, and the rate of discount in London was marked up a fraction and call money was easier there. The call loan rate went to 7 per cent in New York, but the only effect on the sterling exchange market was a fall of a fraction in the rate of long standing. The pressure on London was from Paris, and was reflected here in sales estimated as high as 50,000 shares.

The shrinkage in values, coming on the low level of New York bank reserve, necessitated the calling of loans, which in many cases it was found difficult to replace with other accommodations. The market showed very feeble railying power and closed very slightly above the lowest. In the early dealings there was a large demand for St. Louis Southwestern seconds, which gained 1%, all of which was subsequently lost. Bonds generally were weak. Total sales, par value, \$2,757,000.

United States 3s reigstered deolined ½ in the bid price. and the old is registered declined % in the

onited States as reightered advanced and the old is registered declined in the bid price.

Commercial Advertiser's London financial cablegram: The markets here were duit and nervous today, fearing trouble in the Transvaal. The Boers' offer of the franchise is obviously inadequate to the imperial government, but is declared satisfactory to the Cape premier. This suggests the possibility of serious trouble with the Cape. Money also was dearer and consols went down ½. Americans were weak throughout the day. The New York bank statement was not liked, and it is feared a worse one is coming. The market hung under party till the afternoon, when New York absorbed a little stock, and then sent lower prices. The close was neavy at the worst.

Fifty-three thousands pounds sterling of gold in bars was bought by the bank and £5,000 arrived from Australia. The continent is taking gold at 77s 10d.

NEW YORK, July 10.—The July cotton report from Washington made very little impression on the cotton market. The trade had been holding off for this report for many days, in the hope that it would throw some light upon the situation of the crop in Texas and dealt only with the June conditions up to July 1. The average for ten years July 1, as officially reported, placed the condition as .85. Today's showing was .87.6, about normal. But trade was thrown back upon its own resources for information as to what has happened to the crop in Texas and elsewhere, with opinions once more at sixes and sevens, leading to marked realization on the part of all classes of operators. Cables reported the same condition abroad that prevailed here and for the same reason. English advices were unsatisfactory this morning and contributed to the rather weak opening, the first call developing a decline of 122 points as to some positions, while others were unchanged. Later business increased with a decline of 426 points before the bureau report was promulgated, when the market began to recover on a little covering. The close was steady at unchanged prices to 2 points decline.

# Game With King

A Kingdom for the Winning.

This is the striking motif of a Brilliant New Serial story Entitled-

Modern Mercenary"

by E. & H. Heron, authors of "Tammer's Duel," Etc., Etc.

Which began publication in the-

## Omaha Sunday Bee, June 18th

STORY that gallops from the first line to the last, that tells a chivalric and intensely dramatic love story, that follows the intricate plottings of master diplomats.

"The plot is fresh, the intrigue ingenious, the portraiture vivid and the treatment unhackneyed. . . . Altogether this is a fierce and vivid ro-

mance."- London Spec-

Curiously enough the collaborators bear the unusual relation of mother and son. E. & H. Heron is the nom de plume for K. & Hesketh Prichard. They have already published several powerful short stories and serials, but "A Modern Mercenary" is their best and latest novel, a story which is attracting widespread

interest in England.

The players of this Game with a King, the prize of which is the winning of a kingdom, are Count Sagan, agruff, unscrupulous, reckless giant, the commander of the guards of Maasau. He plays as a tool in the hands of Selpdorf, Chancellor to the King, the 'man of the hour." And behind these two, old Major Counsellor, representing England, the shrewdest diplomat of Europe, and Baron von Elmer of Germany, play the intricate keys of diplomacy. The King of Maasau, who is weak, worn out and suspicious, is a mere puppet in the hands of these master players. The pawns of the game are John Rallywood, the Modern Mercenary, a straight back, fearless young Englishman who fights a duel as cheerfully as he makes love to a nobleman's daughter; Valeria, the heroine, and the Countess Sagan, who loves the hero and appears as Valeria's bitter rival. All this takes place in the independent state of Maasau, which is so small that it is hardly noticeable even on the largest sized map of Europe.
